

- Wants German hydrogenation plants July 210
- Awards:**
- Atomic bomb scientists given Medal of Merit (N).....Apr. 155
- Chemical Engineering Achievement award to go to atomic bomb project.....Jan. 131; Mar. 100
- Chemical Industry Medal for 1946 awarded to Willard H. Dow.....Nov. 154
- John Wesley Hyatt award (N).....May 181
- Test for differentiating between natural rubber and synthetic receives award (N).....Mar. 165
- B**
- Barium—western producers and processors of barium minerals (N).....Nov. 208
- Bark—processed waste bark commercialized.....June 172
- Batch Operation:**
- Batch size vs. production run. L. P. Wensell.....Oct. 168
- Batch unit simulates countercurrent decantation. A. J. Ooelshaw (P.N.).....July 139
- How electrical conductivity can aid in separation of immiscible liquids. J. E. Cornish (P.N.).....Aug. 127
- How to determine economical batch sizes. S. E. Andersen.....July 137
- More on batch sizes. S. E. Andersen.....Oct. 170
- Weight control report. D. M. Conaldine.....Apr. 125
- Belgium—window glass requirements.....Feb. 206
- Bentonite — West's bentonite output reaches new high (N).....Nov. 204
- Wyoming bentonite output rises.....Mar. 184
- Benzene homologs (A).....May 294
- Berl Ernst—an appreciation.....Mar. 124
- Beryllium:**
- Germany manufactures beryllium.....Apr. 206
- Germany produces beryllium.....July 124
- Preparation of beryllium powder (A).....July 260
- Bins—design of storage bins. A. H. Korn.....Sept. 100
- Biotin (A).....Nov. 308
- Bleaching tallow with sodium chloride. Tuttle & Woodward.....May 114
- Blood—engineering technique commercializes human blood fractionation. J. R. Callahan.....June 101
- Boilers—diffraction studies of turbine deposits (A).....Nov. 304
- Boiling points—nomographs for correcting boiling points. D. S. Davis (P.N.).....Aug. 120
- Book Reviews:**
- Advancing fronts in chemistry—high polymers ed. by S. B. Twiss.....Apr. 293
- American petroleum refining. H. S. Bell.....Feb. 283
- Atomic and free radical reactions. E. W. R. Steele.....June 275
- Bibliography on the petroleum industry. DeGolyer & Vance.....June 283
- Chemicals and food production. Nov. H. Grogins.....Feb. 283
- Colloid chemistry ed. by Jerome Alexander.....Oct. 297
- Colloids, their properties and applications. A. G. Ward.....Nov. 297
- Currents in biochemical research ed. by D. E. Green.....Oct. 297
- Ducktown back in Raft's time. R. E. Barclay.....Oct. 297
- Electro-plating. Field & Wells.....Jan. 297
- Electron and nuclear counters: theory and use. S. A. Korff.....Oct. 298
- Electron optics and the electron microscope. V. K. Zworykin & others.....Mar. 273
- Electronics dictionary. Cooke & Markus.....Jan. 288
- Encyclopedia of chemical reactions comp. by C. A. Jacobson.....Feb. 282
- The engineer in society. John Mills.....Dec. 273
- English-French and French-English technical dictionary. Francis Cassel.....Oct. 297
- Gas analysis and testing of gaseous materials. V. J. Altieri.....Apr. 292
- German for the scientist. P. F. Wiener.....Nov. 314
- Glycerin, its industrial and commercial applications. Lemingwell & Lesser.....May 300
- Hark's chemical dictionary ed. by Julius Grant.....May 299
- Handbook of nonferrous metallurgy ed. by D. M. Liddell.....Feb. 383
- Hydrofluoric acid alkylation.....Dec. 278
- Important patents available to the public free of charge. A. J. Kramer.....Dec. 276
- Industrial research laboratories the U. S. comp. by Callie Hull.....Dec. 274
- Instruments and process control. N. Y. State Vocational & Practical Arts Assn.....July 273
- International cartels. Ervin Hexner.....May 300
- Introduction to emulsions. G. M. Suthelm.....July 273
- Kingzett's chemical encyclopedia ed. by R. K. Strong.....July 273
- Life of a chemist, memoir of Vladimir N. Ipatieff.....Dec. 274
- Manual for water plant operators. A. A. Hirsch.....Oct. 297
- Marketing in the West (ed.) by S. H. Eagle.....Dec. 273
- Modern chemistry. A. J. Berry.....Sept. 267
- Modern plastics. Harry Barron.....June 275
- Modern plastics encyclopedia.....June 275
- Organic preparations. Conrad Weygand.....Mar. 274
- Organic qualitative microanalysis. Frank Schneider.....Aug. 273
- Our oil resources ed. by L. M. Fanning.....May 299
- Outline of organic nitrogen compounds. E. F. Degering & others.....May 299
- Personality and English in technical personnel. P. B. McDonald.....Aug. 299
- Petroleum production. P. J. Jones.....May 299
- Photosynthesis and related processes. E. J. Rabinowitch.....Apr. 294
- Physical chemistry for colleges. E. B. Millard.....Nov. 316
- Physical methods of organic chemistry (ed.) by Arnold Weissberger.....Sept. 257
- Poisons: their properties, chemical identification, symptoms and emergency treatment. Brooks & Aleya.....Aug. 273
- Polarographic and spectrographic analysis of high purity zinc and zinc alloys for die casting.....Apr. 296
- Practical management research. Wren & Heyel.....Oct. 287
- Principles of industrial process control. D. P. Eckman.....Jan. 297
- Proceedings of American Gas Association.....Oct. 297
- Quantitative organic microanalysis ed. by Julius Grant.....July 273
- Raw materials from the sea. Armstrong & Miall.....Mar. 273
- Regent chemicals and standards. Joseph Rosin.....Oct. 300
- Rubber in engineering.....Sept. 257
- Science and art of perfumery. Edward Sagarin.....Jan. 288
- Surface active agents. Young & Coons.....Apr. 293
- Symposium on stress corrosion cracking of metals ed. by C. S. Cole.....June 276
- Textbook of physical chemistry. Samuel Glasstone.....Oct. 298
- Theory and practice of filtration. Dickey & Bryden.....Nov. 313
- Training for supervision in industry. G. H. Fern.....Jan. 287
- Two worlds. W. B. Ziff.....Nov. 314
- Vapor adsorption. Edward Ledoux.....Nov. 313
- Violin varnish. Joseph Michelman.....Sept. 257
- Warning labels.....Aug. 273
- Water treatment and purification. W. J. Ryan.....Sept. 257
- Borax—borates and soda production in California, 1945 (N).....May 206
- Bottle coating of nitrocellulose.....June 152
- Braconyl insecticide (A).....May 292
- Brass cleaning agent (A).....Oct. 150
- Brazil:**
- Consuming large amounts of insecticides.....Dec. 192
- Exports make new record.....June 200
- Import curtailment stimulated development of chemical production.....Jan. 198
- Sulphuric acid plants to be built.....Dec. 196
- Technical university opens.....Apr. 200
- British Columbia—new lime project.....July 212
- Butylbenzene isomer hydrogenation (A).....Dec. 270
- C**
- Cadmium—electrolytic polishing of cadmium (A).....June 269
- Calcium carbide—notes on the German carbide industry. L. W. Greene.....July 123
- Camphor—tricresyl phosphate (A).....May 272
- Canada:**
- Nitrate of ammonia to be produced.....Mar. 193
- Nylon for civilian use.....Jan. 206
- Rayon production to increase.....Apr. 200
- Rayon weavers form association.....Jan. 204
- Canada:**
- Carbon 13 (A).....Jan. 160
- Carbon, graphite, karbate and acetic acid. E. S. Malkin.....Nov. 253
- Carbon. Graphite and karbate for phosphoric acid service. L. C. Werking.....Sept. 210
- Radioactive carbon (A).....Feb. 182
- Carbon black—production and sales of carbon black (1944-45 table).....July 294
- White carbon black (A).....June 145
- Carbon dioxide—solid CO₂ industry thrives on improved production methods. G. T. Reich.....Jan. 20
- Carboy hoist, carriage and tipper. L. K. Arnold (P.N.).....Apr. 115
- Castor plant albumen used to make textile fibers (A).....Feb. 278
- Catalysts:**
- Aerotox accelerator 187 (A).....May 178
- Autoxidation process for sulphuric acid and sulphate production. H. E. Keyes.....May 126
- Materials of construction in bead catalyst plant.....May 231
- Caustic soda—chemical engineering progress for peace.....Feb. 125
- Distribution and production of soda ash, caustic soda and chlorine 1921-45 (charts & tables).....Jan. 100
- Cellulose:**
- Action of metallic sodium on cellulose derivatives (A).....Apr. 288
- Hydrolysis of cellulose (A).....Aug. 270
- Water soluble cellulose derivatives (A).....Sept. 141
- Cement, corrosion resistant (A).....Dec. 143
- Ceramics—German ceramics.....June 207
- High temperature ceramic coating (A).....Feb. 190
- Charcoal—German process for manufacturing activated charcoal. S. Horvath.....June 112
- "Chemical Engineering"—Coagrove becomes Western editorial assistant.....Nov. 198
- Pacific Process Industries becomes Western Supplement.....Dec. 162
- Chemical Engineering:**
- Chemical engineering progress for peace—report.....Feb. 123
- Chemical engineers and industrial psychology. B. H. Hopkins.....Feb. 147
- Chemical engineers as citizens (A).....Apr. 266
- Education at the crossroads (ed).....Sept. 93
- Education pays (ed).....Oct. 121
- Educational program faces difficulties.....Sept. 97
- Friction between scientists and military men (A).....Apr. 284
- Process design and operation by the economic balance—report.....Sept. 118
- Technical manpower falls short of industry requirements.....July 109
- Chemical Engineering Reports:**
- Atomic energy... its future in power production.....Oct. 125
- Chemical engineering in the Middle West—symposium.....Oct. 97
- Chemical engineering progress for peace.....Feb. 123
- Chemical engineering's war-ending achievement—the atomic bomb. P. C. Keith.....Feb. 107-122
- Chemical requirements of the petroleum refining industry.....Jan. 139
- Equipment progress portrayed at 20th Chemical Exposition.....Mar. 129
- Index to Chemical Engineering reports 1924-1946.....Dec. 156
- Japanese chemical industry's outlook.....July 132
- Market research symposium for junior chemical engineers.....May 153
- Materials of construction.....Nov. 96
- Mexico's chemical industry.....June 120
- Process design and operation guided by the economic balance.....Sept. 118
- Progress in development of gas turbines.....Dec. 123
- Weight control, a valuable tool of process industries. D. M. Conaldine.....Apr. 126
- Chemical Industry:**
- American chemical industry today (A).....Aug. 264
- California's chemical industry continues growth (N).....Dec. 162
- California chemical plants little affected by war's end (employment table).....Jan. 182
- Chemical industry moves to Texas (A).....May 270
- Chemical marketing statistics program of Bureau of Census. J. A. Van Swearingen.....Jan. 132
- Encouraging chemical industry in the South (A).....May 258
- End uses for chemicals.....May 322; June 304; Sept. 282; Dec. 300
- From five years of war a \$3,000,000 chemical industry for peace (charts & table).....Jan. 96
- Inter-industry competition (ed).....Nov. 160
- New chemical industries help integrate Western economy.....Oct. 116
- New industrial chemicals for the west.....May 209
- Productivity study begins (N).....Oct. 84
- Some backgrounds of our industrial development (N).....Oct. 282
- U. S. production of certain chemicals (tables).....Feb. 298; Mar. 292; Apr. 322; May 324; June 308; July 296; Aug. 296; Sept. 286; Oct. 322; Nov. 340; Dec. 306
- Value of output, chemical process industries 1929-45 (chart).....Jan. 110
- War Assets releases more western industrial plants (N).....May 198
- Chemical Market Research Assn. meets (N).....Jan. 166; Oct. 157
- Chemical Warfare Association formed Mar. 36; meeting (N).....June 155
- Chemical Warfare Service—discoveries (A).....June 256
- Experts honored (N).....Feb. 185
- Research and development program (A).....Aug. 254
- Chemicals—groups in which various compounds belong (P.N.).....Aug. 129
- Chemistry, structural (A).....July 264
- Chicago Technical Societies Council. L. A. Bain.....Aug. 104
- Chile:**
- Iodine output cut.....Apr. 204

Nitrate of soda output expanded....	Mar.	200	Chemical stoneware for construction material. F. E. Herstein.....Dec.	214	Dyes:		
Sodium nitrate increases.....July	212		Chromium corrosion (A).....June	248	German dyestuff research (A).....Apr.	264	
Whale oil for export trade.....Aug.	158		Color rustproofing (A).....Mar.	156	Molding powder dyes (A).....Nov.	176	
China:			Corrosion of constructional materials by sulphur and sulphides. J. B. West.....Oct.	*225	Plastic dye.....June	162	
Chemical reconstruction needs (N)....	Feb.	196	Corrosion-proof coating (A).....Mar.	156			E
Electrochemical production surveyed	Mar.	198	Corrosion resistance of materials....	Nov. 120-150			
Oil refining industry to be developed	Feb.	212	Hastelloy, material of construction. C. G. Chisholm.....Dec.	206	East Indies—Netherlands East Indies closed to businessmen.....Nov.	236	
Patent situation affects developments	Apr.	200	High silicon iron as a material of construction. W. D. Staley, Dec.	*210	Economic balance should guide chemical process design and operation—report.....Sept.	118	
Strikes retard industrial progress (N)	May	222	Inhibitor (A).....Aug.	152	Editorials:		
Tung oil shipments will be light....	Oct.	206	National Assn. of Corrosion Engineers convention.....June	215	Afterthoughts and second guesses		
Chlorimet and durimet in relation to acetic acid. W. D. Staley.....Nov.	256		New alloys for severe corrosion service. M. G. Fontana.....Oct.	*114	Always building, never built.....Nov.	93	
Chlorine:			Nickel, nickel alloys as materials of construction. W. Z. Friend, Dec.	218	An atomic oath.....Jan.	134	
Chemical engineering progress for peace.....Feb.	125		Phosphoric acid vs. materials of chemical plant construction—symposium pt. 1, July *221; pt. 2, Aug. 203, pt. 3.....Sept.	203	An index of progress.....July	130	
Chlorination of silicate oxidized nickel ores (A).....May	294		Rubber lining for construction. O. S. True.....Dec.	216	Annual wage guarantees.....June	118	
Chlorine compound (A).....Mar.	160		Special materials solved corrosion problems at Oak Ridge. Schrader & De Haan.....Nov.	*96	Another "plus" for the Pacific.....Nov.	161	
Distribution and production of soda ash, caustic soda and chlorine 1921-45 (charts & tables).....Jan.	100		Spraying metal surfaces with corrosion resistant metals (A).....Dec.	167	At last an A.E.C.....Nov.	160	
Economics of chlorine cell operation (A).....June	252		Tests for corrosion in a chemical plant. S. W. Shepard.....Apr.	*217	Atomic engineering's future.....Mar.	95	
Factors affecting anode consumption in chlorine cells. Hammond & Johnson.....Sept.	*94		Worthwhile—corrosion rates in hot solutions. W. E. Pratt (tables).....Dec.	205	Basic cause of delay.....Feb.	106	
Flowsheet of typical American electrolytic chlorine plant.....Jan.	227		Cost accounting—needed: standard cost estimating data for the process industries. Henry Eckhardt, Sept.	104	The beginning of reason.....May	142	
German chlorine industry (A).....Jan.	227		Creosote—pyrocatechin from wood concrete (A).....Apr.	286	Better gas utilization.....July	150	
Germany's vertical rotating cathode mercury cell.....Jan.	*113		Crystal, synthetic (A).....June	150	Better training for foreign service.....	134	
Chlorine Institute—meeting (N).....Feb.	190		Crystallization—nomograph predicts crystal sizes. Hooks & Kerse, Jr. (P.N.).....July	*140	Bikini bound.....June	93	
Chromium:			Cuprene—reaction of cuprene with hydrogen halides (A).....Feb.	272	Bikini byproducts.....July	101	
Chrome minerals in France (A).....Oct.	294		Cutting oils (A).....Sept.	142	Bugaboo of bureaucracy?.....Feb.	106	
Chromium corrosion (A).....June	248		Cyclohexane derivatives (A).....Jan.	160	Chemical engineering.....Aug.	130	
Diffusion layers of chromium for protection of iron (A).....Mar.	270		Czechoslovakia—adviser to chemical industries.....Nov.	294	Chemicals from war into peace.....Jan.	95	
Cigarette Paper:			Coal-tar chemicals produced.....July	212	Chemical Warfare Service needs "friends".....Aug.	128	
Cigarette paper making. J. A. Lee.....June	*94		D		Chemurgic progress needed.....Jan.	118	
Cooperation made paper. E. P. Jones (c).....Sept.	162		DDT:		Chicago Chem Show.....Aug.	130	
Flow sheet.....June	*133		DDT concentrate (A).....Mar.	158	Cooperation with regulations.....Nov.	161	
Clay see Kaolin			DDT garden dust (A).....Mar.	162	Disarming Japan.....Dec.	115	
Cleaning:			DDT light (A).....Oct.	159	Education at the crossroads.....Sept.	93	
Chemical cleaning of power and process equipment (A).....Feb.	272		Germany produces DDT and GIX.....Feb.	216	Election is over.....Nov.	161	
Cleaning compound (A).....Mar.	156		Infrared spectroscopy applied to DDT (A).....Aug.	262	Eliminate the booby traps.....Sept.	117	
Engine cleaner (A).....May	170		South Africa produces DDT.....June	188	Emotional scientists.....May	143	
Clothing to resist acid (E.N.).....Sept.	*129		Decontamination survey (N).....Mar.	64	Enterprising vs. yardstick.....Aug.	130	
Coatings:			Defroster, liquid (A).....Nov.	178	Explaining the profit motive.....Sept.	117	
Bright finish (A).....May	178		Dehydrator, high vacuum (E.N.).....May	148	"The first of 105".....July	131	
Nitrocellulose coating.....June	152		Deodorant (A).....May	170	For a chemical safety manual.....Jan.	143	
Protective coatings (A).....July 156;			Deodorizing edible oils flowsheet.....Nov.	*134	For professional guidance.....Sept.	117	
Sept.	141		Detearing and spraying, electrostatic (A).....Jan.	278	The greatest show on earth.....Feb.	105	
Protective coating for paint spray booths (A).....Aug.	148		Detergents:		Headaches and hangovers.....Oct.	93	
Pyroxilin coating composition (A).....Sept.	142		Alkaline detergent (A).....July	154	Important corrections.....Feb.	106	
Resin surface coating (A).....May	174		Cleaner.....June	152	Inter-industry competition.....Nov.	160	
Stripper for coatings (A).....Apr.	152		Paper mill felt washing compound (A).....Aug.	146	International meetings in Paris.....July	131	
Vinyl coating (A).....Jan.	160		Synthetic detergent.....June	148	Interurban fuel salts.....Dec.	119	
Wood coating (A).....Jan.	160		Synthetic detergent (A).....Oct. 152;		The legislative jam.....July	131	
Coke and Coal Products:			Nov.	172	International trade in know-how.....Jan.	134	
Coal chemical industry trends and problems. Wilson & Wells.....Dec.	*110		Directory of materials.....Nov. 110-119		It's our job too.....Dec.	119	
Coke ovens located in the West and their capacities.....Aug.	165		Directory of 20th Exposition Chemical Industries.....Feb.	309	Lest we forget.....May	143	
Foamed coal produced by Germany.....Feb.	216		Disinfectant (A).....Jan.	159	Long-range solution.....July	130	
Production of coal-tar synthetic organic chemicals 1938-44 (chart & table).....Jan.	102		Disolver, high speed (E.N.).....Oct.	*136	Methanol vs. ammonia.....July	130	
Production of coke and byproducts at byproduct coke plants. Bureau of Mines table 1945.....Aug.	292		Distillation:		Military research vs. Obsolete weapons.....Nov.	160	
Radical coal carbonization ready for production (N).....Mar.	186		Dye insoluble in one component permits visual study of packing channeling. G. V. O'Connor (P.N.).....Nov.	*162	Missionaries for market research.....May	142	
Trends in coal research (A).....Mar.	266		New unit operations and equipment.....Feb.	*135	More award winners.....Apr.	118	
Color film development agent (A).....Oct.	154		Water distillation makes successful use of vapor recompression.....Jan.	*129	More private standardization.....Apr.	118	
Color rustproofing (A).....Mar.	156		Drilling compound (A).....July	164	More research vs. stockpiling.....Oct.	121	
Compressors—solid carbon dioxide industry thrives on improved production methods. G. T. Reich.....Jan.	*120		Drugs—pharmaceutical shortages (A).....Sept.	242	No pork barrel for science.....June	118	
Concrete—light aggregate processed from obsidian rock (N).....Apr.	183		Drum handling equipment (P.N.).....Sept.	*127	No silver lining?.....May	143	
Condenser, refrigerant gas (E.N.).....Oct.	135		Drying—continuous drying of adsorbent materials. Edward Ledoux, Sept.	*109	Now is the time.....Apr.	118	
Construction for industry (ed).....Sept.	116		Duramet for phosphoric acid service. D. E. Jack.....Sept.	203	On backing S.150.....Apr.	119	
Controllers:			Durimet and chlorimet in relation to acetic acid. W. D. Staley.....Nov.	256	One step toward one world.....May	113	
Automatic wire guide for paper machines (P.N.).....July	*139		Dust and Fume Handling:		Our changing industrial geography.....Sept.	116	
Fuel oil controller (E.N.).....Aug.	*132		Air duct design for industrial ventilating systems. C. C. Hermann.....Mar.	*118	Our wobbly policy on rubber.....Dec.	118	
Multiple controller (E.N.).....July	163		Characteristics of commercial types of dust collector. C. C. Hermann.....Apr.	*106	Paying for dead horses.....Dec.	91	
Redesigned controller (E.N.).....Oct.	*137		Cottrell precipitator developments (A).....Apr.	270	Per dollar of sales.....Jan.	134	
Synchronous motor controller (E.N.).....Oct.	*138		Design of hoods for efficient dust removal.....Feb.	*158	Perennial problem.....Aug.	130	
Thermostatic control (E.N.).....Sept.	*131		Dust concentration and cyclone volume capacity (A).....Mar.	256	Physico-chemical engineering.....Feb.	105	
Copper and copper-alloys for phosphoric acid service. C. L. Bulow.....Aug.	210		Flyash deposit in pipelines removed by installing water spray. J. S. Tooker (P.N.).....Apr.	*116	A poor start on a vital problem.....Sept.	114	
Cork—chemical resistance of gasket materials (table).....Nov.	106		Practical methods used for dust disposal. C. C. Hermann.....May	*134	Princeton's first 200 years.....Oct.	120	
Corrosion:			Pre-collector (E.N.).....June	*135	Public service patents.....Jan.	135	
Acetic acid vs. materials of chemical plant construction—symposium pt. 1, Nov. *223; pt. 2.....Dec.	*205				Purposeful centennial.....Apr.	119	
Aluminum corrosion (A).....July	266				Rating the candidates.....Oct.	120	
Anti-corrosion coating (A).....Sept.	146				Rebuilding confidence in industry.....Dec.	118	
Checking corrosion of oil well pipelines (A).....Nov.	296				Recognition and reward.....June	118	
Chemical and heat resistance of gasket materials. Dunkle & Fetter.....Nov.	102				Resources "exhausted"?.....Jan.	116	
Chemical resistance of gasket materials (table).....Nov.	106				The rising spiral.....Sept.	116

Langbeinite mining and processing (A.).....	Sept.	240
Latvia—new superphosphate mill.....	Sept.	190
Leaching—batch unit simulates counter-current decantation. A. J. Ochsenschaw (P.N.).....	July	*139
Lead as a material of construction. H. M. Church.....	Dec.	208
Lead—phosphoric acid production uses lead for equipment satisfactorily. H. M. Church.....	Sept.	206
Leather:		
Artificial leather (A.).....	Jan.	159
Cleaner for leather (A.).....	Apr.	146
New chemicals used in English tanneries. P. L. Smith.....	Sept.	98
Preparation of artificial tanning materials in Germany.....	Jan.	214
Synthetic tanning (A.).....	Feb.	179
Leatherings, protective (E.N.).....	June	*135
Libraries—advance scouts for research. L. O. Lewton.....	Mar.	112
Lignin used to reinforce rubber (A.).....	Nov.	298
Lime:		
Burnt lime yields in California increase (N.).....	June	178
Estimating best output and fuel rates of wet-feed lime kilns. Ralph Gibbs.....	May	*139

Estimating best output and fuel rates of dry feed lime kilns. Ralph Gibbs.....	Apr.	*99
Lubrication:		
Additive (A.).....	Jan.	159
Aircraft grease (A.).....	May	170
Gear lubricant.....	July	160
High-temperature lubrication (A.).....	Sept.	254
Lubricating oil (A.).....	Oct.	150
Lubricants from aromatics and paraffin chains (A.).....	Aug.	268
Mold lubricants (A.).....	Feb.	179
Synthetic low temperature grease (A.).....	Aug.	146
Synthetic lubricants from tetrahydrofuran in Germany.....	May	224

M

Magnesium:

Commercial applications needed (N).....	Dec.	262
Inhibiting combustion of magnesium while pouring (A.).....	May	296
Magnesium as a galvanic anode (A).....	Oct.	268
Output of caustic calcined magnesia increases (N).....	Feb.	196
Magnesium chloride spray dried (A).....	Mar.	254
Magnesium oxide—Complex processing used for light magnesium oxide. A. Q. Smith.....	Oct.	*119
Malaria—anti-malarial drug (A).....	Jan.	162
Manganese—electro-process developed to produce metallic manganese. Allen, Jacobs & Hunter.....	Mar.	*106
Marketing statistics of Bureau of Census. J. A. Van Swearingen.....	Jan.	*132
Materials Handling:		
Carboy hoist, carriage and tipper. L. K. Arnold (P.N.).....	Apr.	*115
Savings in shipment with aluminum pallets (P.N.).....	June	*117
Weight control report. D. M. Censidine.....	Apr.	*125
Materials Handling—see also Conveyors, Equipment News, Trucks		
Materials of Construction:		
Acetic acid vs. materials of chemical plant construction—symposium, pt. 1. Nov. *253; pt. 2.....	Dec.	*205
Calculating stresses in pressure vessels. C. E. Boe.....	Mar.	*114
Chemical and heat resistance of gasket materials. Dunkle & Fetter.....	Nov.	190
Corrosion of constructional materials by sulphur and sulphides. J. R. West.....	Oct.	*222
Corrosion resistance of materials.....	Nov.	120-15
Costs of chemical engineering equipment estimated. Happel, Aries & Borns (charts & tables).....	Oct.	*99
Costs of equipment—letters from readers.....	Nov.	156
Directory of materials.....	Nov.	110-119
Efficient utilization (A).....	Oct.	278
Materials of construction for airplanes (A).....	Aug.	254
New alloys for severe corrosion service. M. G. Fontana.....	Oct.	*114
Phosphoric acid vs. materials of chemical plant construction—symposium, pt. 1. July *221; pt. 2. Aug. 203; pt. 3. Sept. 203		
Silver as a material of construction. L. C. Burman.....	Nov.	262
Special materials solved corrosion problems at Oak Ridge. Schrader & De Haan.....	Nov.	*96
Treasury buying materials (N).....	Oct.	82
Warfare progress in materials of construction.....	Feb.	225
Mathematical formulas—triangular charts perform logarithmic operations. M. M. Reynolds (P.N.).....	Feb.	*164
Medal awards see Awards		
Melamine produced in Germany.....	Mar.	204
Mercerizing assistant.....	June	152
Metallizing a plastic (A).....	Jan.	256
Metals—chemical resistance of gasket materials (table).....	Nov.	106
Spraying metal surfaces with corrosion resistant metals (A).....	Dec.	167
Meters:		
Bellows meter (E.N.).....	Sept.	*130
Flowmeter for liquids or gases. Leslie Silverman (P.N.).....	Jan.	*138
Flow transmitter (E.N.).....	Aug.	*134
High viscosity meter (E.N.).....	Aug.	134
How to use metering characteristics of steam jet ejectors. Philip Frenau.....	June	*104
Iodine coulometer (A).....	Jan.	274
Purity meter (E.N.).....	Aug.	*134
Methyl methacrylate production in Germany.....	Jan.	210
Mexico:		
Dry ice industry developed (N).....	Sept.	186
Industrial laboratories to be built.....	Nov.	238
New oil refinery.....	Nov.	200
Petroleum and gas (A).....	Nov.	308
Report on Mexico's chemical industry.....	June	*120
Sulphur wells drilled in Vera Cruz.....	Nov.	238

- Tax on sales of salt.....Aug. 190
Mica—German pilot plant production of synthetic mica. H. A. Curtis, Mar. 109
Midwest—chemical engineering in the Middle West—report.....Aug. 97
Technical societies organize for greater service to Midwest—symposium.....Aug. 104
Midwest Research Institute—occupies a unique position in Mid-America. E. C. Fetter.....Aug. 101
Mildew-proofing agent (A).....Mar. 145
Minerals—resources "exhausted"? (ed).....Jan. 135
- Mixing:**
Choice of liquid agitators. L. S. Brumagin.....Apr. 110
Mixing liquids in shallow tanks aided by design analysis. Bissell, Everett & Rushton.....Jan. 118
Mixing see also Agitation
Models—pharmaceutical plant uses scale models for plant and equipment layout and design.....Oct. 142
Monosodium glutamate (A).....Sept. 210
Western plant to open soon (N) May 212
Motors—hydraulic motor (E.N.).....Oct. 135
Inclosed motor (E.N.).....June 133
Munitions—spectacular developments made in incendiaries. R. W. Hufferd.....Oct. 136
Flowchart for the manufacture of smokeless powder by the ball powder process. T. R. Olive, Dec. 136
Smokeless powder manufactured by the ball powder process. T. R. Olive.....Dec. 136
- N**
Napalm reconverts from incendiaries to soap. G. E. McCadden.....Sept. 215
National Assn. of Corrosion Engineers—convention.....June 215
National Chemical Exposition at Chicago—exhibitors.....Aug. 108
National Farm Chemurgic Council—Idaho committee plans advances (N).....Apr. 190
- Natural Gas:**
Better gas utilization (ed).....July 130
California production of natural gas 1930-45.....Aug. 165
Commercial nitration of natural gas (A).....June 264
Consumption and production of natural gas in U. S. G. B. Oberfeld (charts & tables).....Jan. 109
Naval stores—supply and distribution of naval stores 1944-45 (chart & table) Jan. 109
Netherlands—chemical industry given financial aid.....Nov. 234
Synthetic rubber may be produced.....202
Netherlands Indies—quinine production for the future.....Aug. 186
Nickel—chlorination of silicate oxidized nickel ores (A).....May 294
Nickel for phosphoric acid service. W. Z. Friend.....Sept. 203
Nickel, nickel alloys as materials of construction. W. Z. Friend.....Dec. 218
Nickel-silver welding alloys (A) Dec. 143
Nitric acid—recycling process uses cheap oxygen for ammonia oxidation. Szé & Wu.....Aug. 113
Nitro coloring materials as rat poison (A) June 270
- Nitrogen:**
Estimates of world requirements and production 1945-46 (table).....Apr. 318
Nitrogen fixation at atmospheric pressures (A).....Jan. 260
Shortage grows (N).....Oct. 82
Nitroguanidine (A).....Oct. 290
Norway—aluminum production at low level.....Jan. 204
Norak hydro in large expansion program (N).....Oct. 200
- Nozzles:**
Carbide—insert nozzle (E.N.).....June 124
Combination nozzle (E.N.).....Sept. 129
Spray nozzles (E.N.).....June 135
- Nylon:**
Elastic nylon (A).....May 170
Flowsheet for nylon.....Mar. 148
Production technique is unique. J. A. Lee.....Mar. 96
Staple fiber (A).....Dec. 146
- O**
Oils and Fats:
Chemical engineering progress for peace.....Feb. 120
Deodorizing edible oils flowsheet.....Sept. 134
Determination of freezing point of oil (A).....Jan. 284
Polymer blends give high viscosity.....Dec. 266
Refining vegetable oils by petroleum methods.....Dec. 120
South Africa to develop tung oil production.....182
Tung oil shipments from China will be light.....Oct. 206
USDA alters oil orders (N).....Apr. 80
Worldwide shortage of oils and fats Jan. 110
Operation Crossroads see Atomic power
- Organic Chemicals:**
Organic chemicals (A).....Aug. 152
Production of synthetic organic chemicals 1940-44 (charts & table) Jan. 102
Production of synthetic organic chemicals 1944-44 (table).....Jan. 304
Feb. 298; Mar. 292; Apr. 322; May 324; Jun. 306; July 296; Aug. 296; Sept. 288; Oct. 322; Nov. 340; Dec. 308
Two new organic chemicals available (A).....Mar. 155
- Oxygen:**
New process shows promise (N).....Apr. 176
Reversing exchangers purify air for oxygen manufacture. S. C. Collins.....Dec. 106
Separation of oxygen from nitrogen (A).....Oct. 276
War-developed oxygen generator with postwar possibilities.....Mar. 125
Oxygen-hydrogen detector (E.N.).....June 134
- P**
Pacific Chemical Exposition scheduled for 1947.....Nov. 193
Packaging—waterproof package liner (A) Mar. 156
- Paints:**
Aluminum asphalt paint (A).....May 169
Aluminum roof paint (A).....July 158
Chemical engineering progress for peace.....Feb. 133
Chemical resistant paint (A).....Mar. 160
Concrete floor paint (A).....Nov. 176
Copper marine paint (A).....Nov. 176
German paints made without drying oils.....June 208
Manufacture of pigment-in-oil pastes (A).....Sept. 238
Pigment color (A).....Sept. 141
Silicone paint (A).....Oct. 153
Thermocolor paints in Germany.....June 312
Tree paint (A).....Mar. 155
Paint brush cleaner (A).....Oct. 149
Palestine—chemical production increases Jan. 202
Plastic production.....Aug. 188
Pallets, aluminum (P.N.).....June 177
Paraffin hydrocarbon (A).....Apr. 146; Nov. 178
Paraffin modifier (A).....Feb. 179
- Patents:**
Can corporate research patent inventions? (A).....Apr. 282
Changes in patent system proposed (A).....Feb. 264
Justice's patent plan (ed).....Nov. 82
Patents are outgrown, not suppressed (A).....May 270
Public service patents (ed).....Jan. 268
Tetraethyl lead in coffee (A).....Oct. 268
Who owns? (A).....June 146
Peanut fiber (A).....June 146
Pebble heater—new heat transfer unit for industry. C. L. Norton, Jr. July 116
Penetrating agent (A).....Jan. 159
Penicillin—crystalline sodium penicillin (A).....Dec. 145
Penicillin salt (A).....Dec. 143
- Petroleum:**
California production of crude petroleum 1939-45.....Aug. 165
Chemical engineering progress for peace.....Feb. 126
Chemical requirements of the petroleum refining industry—report.....Jan. 139
Concurrent flow in TCC operation (A) Oct. 276
Desalting petroleum with fiberglass packing (A).....Apr. 258
Forecasts for petroleum (A).....Oct. 280
Future products from the oil fields (A).....Jan. 250
General Petroleum expansion Torrance refinery.....June 168
Hypothesis advanced for crude oil formation (A).....June 260
Liquid-charge technique in TCC processing (A).....Jan. 252
Mechanism of catalytic cracking (A) Oct. 284
Mexican petroleum and gas (A).....Nov. 308
Nitration of high molecular weight hydrocarbons (A).....Apr. 288
Nomenclature of sulphur compounds in petroleum (A).....May 290
Organic peroxide (A).....Apr. 145
Petroleum from coal mines (A).....July 262
Petroleum policy is needed (A).....Mar. 252
Petroleum solvents (A).....Oct. 149
Phthalic anhydride from ortho-xylene flowsheet.....Aug. 138
Phthalic anhydride from petroleum breaks a coal-tar tradition. J. R. Callahan.....Aug. 116
Plasticizer from petroleum (A).....Nov. 176
Refining vegetable oils by petroleum methods.....Dec. 120
Research extends our reserves (A).....June 248
Research potentials (A).....Sept. 250
Suggested lines for petroleum research (A).....Jan. 262
- Synthetic fuels promise to bolster petroleum reserve. P. C. Keith (charts).....Dec. 101
Synthetic bead catalyst flowsheet.....Apr. 138
Synthetic bead catalyst production. R. W. Porter.....Apr. 94
Toluene synthesis and azeotropic recovery (A).....Jan. 268
Pharmaceuticals—anti-malarial (A).....Feb. 182
Chemical engineering progress for peace.....Feb. 128
- Phosphates:**
New phosphate mine opened by Simplot (N).....Oct. 180
Kaiser begins phosphate fertilizer operations (N).....Nov. 212
Western phosphate deposits surveyed by Monsanto (N).....Oct. 172
Phosphoric acid vs. materials of chemical plant construction—symposium, pt. 1, July '22; pt. 2, Aug. 202; pt. 3.....Sept. 203
Photographs of molecules (A).....May 292
Phthalic anhydride from ortho-xylene flowsheet.....Aug. 138
Phthalic anhydride from petroleum breaks a coal-tar tradition. J. R. Callahan.....Aug. 116
Phthalic anhydride unit approaches capacity (N).....Jan. 176
Pine root aviation gas used by Japanese June 174
- Pipes:**
Air duct design for industrial ventilating systems. C. C. Merman Mar. 118
Checking corrosion of oil well pipelines (A).....Nov. 296
Costs of chemical engineering equipment estimated. Hoppel, Arles & Burns (charts & tables).....Oct. 99
Flareless fitting (E.N.).....Aug. 272
Glass piping developments (A).....Jan. 272
Glass piping prevents corrosion in atomic bomb construction. Schrader & De Haan.....Nov. 96
Joint, rotating water (E.N.).....May 150
Manufacturing service lines to process vessels to prevent mixing of water and brine. J. J. Kravilla (P.N.) July 135
Miles of glass piping fabricated in field at Oak Ridge. B. W. Whitehurst.....July 112
Roadway heated by pipes embedded in concrete (P.N.).....Dec. 121
Self-cleaning orifice for limiting pipe flow made from plug cock. A. C. Guillen (P.N.).....May 146
Thermocouple seal for low pressure systems. S. F. Circello (P.N.) Oct. 123
Plant fiber. Chemical resistance of gasket materials (table).....Nov. 106
Plant layout. Pharmaceutical plant uses scale models for plant and equipment layout and design.....Oct. 104
- Plant Notebook:**
Accident prevention will pay off in 1946. J. T. Morris.....Jan. 137
Ammonia scrubbers controlled by simple flowmeter. Frank Gibadio Aug. 127
Automatic alarm for manual valves. Benenati & Finneran.....Jan. 137
Automatic wire guide for paper machine.....July 139
Batch unit simulates countercurrent decantation. A. J. Occhleshaw.....July 139
Building a slugging type gas producer for pilot plant gas supply. Highnett & Stout.....Jan. 136
Chart for critical pressure of any substance. Hooks & Kerze.....Nov. 163
Chart for flow of saturated and superheated steam.....May 146
Chart for shell and tube heat exchangers. Cook & Tolman.....Mar. 128
Chart for vapor pressures of hydrocarbons. Ernst Berl.....Feb. 121
Chemical concern heats roadway. Control valve for fluids in suspension. J. D. Wilkerson.....Jan. 137
Critical temperature from normal boiling point. Hooks & Kerze.....May 147
Design of a spiral ribbon. C. A. Lee.....Sept. 156
Determining niter supply in sulphuric acid plants. P. F. J. Kok.....Sept. 127
Developing circulation in an evaporator. C. A. Lee.....Aug. 128
Drum handling equipment.....Sept. 127
Dye insoluble in one component permits visual study of packing channeling. G. V. O'Connor.....Nov. 162
Entrainment trap features visibility. L. H. Peterson.....Mar. 128
Filtration technique for non-spar concentrates.....Feb. 165
Flowmeter for liquids or gases. Leslie Silverman.....Jan. 138
Flowmeter for small flow rates. S. F. Williams.....Oct. 123
Flyash deposit in pipelines removed by installing water spray. J. S. Tooker.....Apr. 116
Gage glass fitting. A. R. Albohn Mar. 127
Groups in which various compounds belong.....Aug. 129
Heated jacket prevents heat loss from closed process vessels. Lynch & Roush.....Dec. 21

- A research program to fit the budget of small industry. H. L. Smith July 128
- Shell opens agricultural research laboratory (N) Oct. 174
- State of Utah maps basic research program (N) Apr. 188
- Waste of scientific manpower (A) Apr. 260
- Resin:**
- Alkyd resins (A) Apr. 146
- Alkyd resin in California to be increased (N) May 210
- Anion exchange (A) Apr. 148
- Compounding and fabrication of vinyl resin. J. A. Lee Aug. *120
- Core and binder (A) Feb. 182
- Doron armor—glass cloth laminated with contact resin. E. C. Fetter Feb. *154
- Knot sealer (A) Mar. 160
- Lacquer resin (A) Feb. 179
- Laminating plastics (A) Feb. 182
- Luminous lucite (A) May 176
- Plastic synthetic resin (A) May 176
- Plywood resins (A) Feb. 180
- Protective coating industry (A) Mar. 258
- Rosin soap as GR-S emulsifier (A) May 266
- Textile resin (A) May 169
- Thermoplastic resins June 146
- Varnish-grade resins now produced from coal (N) Mar. 177
- Wet strength resin (A) Jan. 159
- Roadway heated by pipes embedded in concrete (P.N.) Dec. *121
- Rosin:**
- Supply and apparent consumption of rosin (table) Mar. 298
- Supply and distribution of naval stores 1944-45 (chart & table) Jan. 109
- Supply and distribution of turpentine and rosin. April-June 1946-45 (table) Sept. 278
- Rotameter, chemical (E.N.) July 164
- Rotameter, low-flow (E.N.) July 143
- Rubber:**
- Better boxes for butyl (N) Oct. 80
- Butyl inner tube performance (A) June 260
- Chemical needs of the rubber industry (R) Jan. 264
- Chemical resistance of gasket materials (table) Nov. 106
- Controls to stay (N) Apr. 78
- Dow process for styrene (A) May 280
- First Western latex plant ready to operate (N) Nov. 206

- Germany produces a fine foamed rubberFeb. 216
Goodyear rubber unit converts to continuous polymerisation (N)Mar. 177
Guayule rubber production carried on (N)Jan. 194
High pressure process for guayule separation, Cummings & Chubb (P.N.)Sept. 212
High-solids synthetic latex (A) May 178
Latex (A)Nov. 176
Lignin used to reinforce rubber (A)Nov. 238
Policy recommendations for synthetic rubber (N)Mar. 166
Rayon and rubber (A)Mar. 246
Rosin soap as GR-S emulsifier (A)May 266
Rubber chemicalsJune 146
Rubber future planned (ed)June 119
Rubber lining for construction materials, O. S. TrueDec. 216
Rubber lining for phosphoric acid service, O. S. TrueAug. 203
Rubber polymer (A)May 169
Russian dandelion gives high rubber yield (A)Feb. 222
Test for differentiating between natural rubber and synthetic receives award (N)Mar. 166
Vulcanization of gr-s with halogen compounds (A)Nov. 306
- Russia:**
Coke yields increaseJune 195
Development of research (A)Aug. 266
Develops method for testing alloysJuly 214
Hydrogen used to cool generatorsFeb. 212
Mineral resources (A)Sept. 246
New method changes color of stainless steelSept. 190
New method for processing ozokeriteApr. 202
Penicillin plants spring upDec. 196
Research on wood distillation chemicalsMar. 194
Restores plants damaged in war, Oct. 209
Rust remover (A)Feb. 182
Rutin extracted from buckwheat (A)Mar. 162
- S**
- Safety:**
Accident prevention will pay off in 1946, J. T. Morris (P.N.)Jan. 137
Control occupational hazards through industrial hygiene, N. V. HendricksJan. 124
Protecting personnel in handling portable electrical equipment, C. A. LeeOct. 109
Protecting workers from the effects of toxic organic solvent vaporsMar. 124
Transporting flammable chemicals, C. L. JonesOct. 163
- Salt:**
California salt output in 1945, July 194
Determination of dry residue from salt solutions (A)Jan. 250
San Francisco Bay area salt goes to chlorine plants (N)May 198
Saran agitator for a 65-gal vessel, Albert Stein (P.N.)May 147
Saran fabrics (A)July 158
Sawdust house (ed)July 131
Scale, dial (E.N.)May 150
Scales—Weight control report, Apr. 125
Scale preventive (A)May 170
Science—Frittering away our leadership (A)Oct. 272
- Sealing:**
Sealing compounds (A)Feb. 180
(A)Aug. 146
Thermocouple seal for low pressure systems, S. F. Ciriello (P.N.)Oct. 123
Seawater desalted (A)June 262
- Separation:**
Continuous separation of fatty acids flow sheetNov. 165
How electrical conductivity can aid in separation of immiscible liquids, J. E. Cornish (P.N.)Aug. 127
New unit operations and equipmentFeb. 125
Sewage problems in San Francisco Bay area (N)May 200
Sewage treatment—Chloroben treatment preferred to chlorine (N)Nov. 204
Shell Union Oil Corp. output in 1945 (N)July 198
Shipping Container Institute (A)Aug. 160
Shows see ExpositionsMar. 156
Silica gel (A)Mar. 156
- Silicones:**
Chemical engineering progress for peaceFeb. 122
Resist corrosionMar. 215
Silicone paint (A)Oct. 152
Silicone resins for electrical insulation (A)May 278
Thermal setting silicone resins (A)July 156
- Silver as a material of construction:**
L. C. BurmanNov. 262
Silver brazing alloy (A)Aug. 146
Silver brazing flux (A)Feb. 179
Slide-rule, plastic (E.N.)June 133
Slime control agent (A)July 163
- Soap:**
Bleaching tallow with sodium chlorite, Tuttle & WoodwardMay 114
Napalm reconverts from incendiaries to soap, G. E. McCaddenSept. 146
Rosin soap (A)June 146
Sulphic oxidized soaps from petroleum byproducts (A)Nov. 310
Synthetic soap (A)Aug. 150
Society for Quality Control organized (N)Jan. 166
Society of Chemical Industry—American Section elects officers (N)July 174
American Section meets (N)Mar. 174
Anglo-American meeting and dinner (N)May 194
Soda ash—distribution and production of soda ash, caustic soda and chlorine 1921-45 (charts & tables)Jan. 100
Production of primary products by American Potash & Chemical (N)May 208
Sodium and calcium permanganate in Germany (A)May 226
Sodium chlorite successfully used for bleaching tallow, Tuttle & WoodwardMay 114
Sodium cyanide plant in Germany, Mar. 206
Sodium hypochlorite (A)July 252
Sodium metal produced in Germany, Mar. 204
Sodium salt—California producers of borates and sodium salts 1945 (N)May 206
Sodium thiosulphate (A)Dec. 268
- Solvent:**
Cleaning agent (A)Nov. 175
Dry cleaning chemicals (A)Sept. 144
Petroleum solvents (A)Oct. 149
Protecting workers from the effects of toxic organic solvent vaporsMar. 124
Solvents face difficult expansion problems, J. G. ParkMay 116
- South Africa:**
Industries to expand (N)May 220
Produces DDTJune 188
Tung oil production to be developedAug. 192
Wood preserving industry to expandMar. 190
- South American Petroleum Convention** will be the first (A)Dec. 268
Southern California Meter Association meetingAug. 170
Spiral—Potash mining increasing, Aug. 190
Spectrometers—Geiger-counter, May 254
Spiral ribbon design, C. A. Lee (P.N.)Feb. 166
Spraying metal surfaces with corrosion resistant metals (A)Dec. 167
Standards—more private standardization (ed)June 118
Starch—Potato starch waste (A)Oct. 278
Sweet potato starch made in the Florida Everglades, Mar. 110
Statistical methods for chemical engineers, E. I. StearnsMay 119
Statistical methods used in quality control, R. J. Davis (charts & tables)Dec. 115
- Steam:**
Chart for flow of saturated and superheated steam, D. S. Davis (P.N.)May 146
Hydrogen by the steam-hydrocarbon processMay 122
Hydrogen by the steam-hydrocarbon process flow sheet, May 162
Steam cleaning unit (E.N.)June 132
Steam jet ejectors used as metering devices, Philip FreneauJune 104
- Steel:**
Chemical engineering concept in steel industry, R. E. Zimmerman, May 131
Phosphatization of steel parts (A)Oct. 293
Stainless steel floor and piping used in atomic bomb plant, Schrader & De HaanNov. 101
Stainless steel for phosphoric acid service, H. C. Egar, Aug. 202
Stepladder, aluminum (E.N.)June 132
Stoneware—Chemical stoneware for phosphoric acid service, F. E. Herstein, Dec. 214
Storage battery separators (A)Aug. 260
- Streptomycin:**
Flowsheet for streptomycin, Oct. 142
Produced by vacuum diffusion process (N)May 181
Streptomycin engineered into commercial production, R. W. PorterOct. 94
Stroboscope, portable (E.N.)July 164
Strontium chemicals flowsheets, Jan. 152
Styrene, Dow process for (A)May 280
Sugar—Modern beet sugar plant for Imperial Valley, CNMar. 168
Sulfanilamide derivatives (A)Feb. 276
- Sulphur:**
Corrosion of constructional materials by sulphur and sulphides, J. R. WestMay 225
Pressure drop chart for sulphur flow, C. E. Butterworth (P.N.)June 116
Production of sulphur and sulphuric acid 1940-45 (charts & tables) Jan. 98
Shipping liquid sulphur is practical Sept. 111
- Sulphuric Acid:**
Alkylation acid regeneration plant flowsheetJuly 144
Autoxidation process for sulphuric acid and sulphate production, H. E. KeyesMay 126
California chemical firm sues union for sulphur stoppage (N)May 204
Chemical engineering progress for peaceFeb. 123
Continuous dilution chart, Anthony Bunk (P.N.)Feb. 165
Determining niter supply in sulphuric acid plants, F. F. J. Kok (P.N.)Sept. 127
Production and consumption of sulphuric acid by areas 1945-44 (table)July 290
Production of sulphur and sulphuric acid 1940-45 (charts & tables) Jan. 98
Recovering alkylation spent acid, J. A. LeeJuly 102
Sulphuric acid equilibrium cell determines air moisture content continuously, Kroll & Foust Jr (P.N.)June 116
Western production of sulphuric acid 1934-45Aug. 170
Sulphur dioxide—Liquid sulphur dioxide improves crop yields (N)Mar. 180
- Surplus Property:**
Government-owned chemical and related plants for sale (list) Jan. 188
Government surplus plants to be adapted to private needs, Apr. 114
Sales and leases of RFC industrial plants and sites (N)Apr. 192
Sale of surplus goods throughout December, 1945 (N)Feb. 192
- Sweden:**
Excelsior used as building material June 202
Market for raw materials, Apr. 204
Superphosphate production increases Feb. 214
- Switzerland:**
Plans to increase exports of chemicals, Karl FalkOct. 106
Pulpwood scarcityJan. 206
Swiss institute to teach chemical engineeringNov. 232
- T**
- Tachometer, low speed (E.N.)Oct. 138
Tachometer, switchboard (E.N.)Aug. 136
Tank cars—shipping liquid sulphur is practicalSept. 111
Siphon discharger for acid tank cars, W. O. Ordianz (P.N.)Sept. 126
- Tanks:**
How electrical conductivity can aid in separation of immiscible liquids, J. E. Cornish (P.N.)Aug. 127
How a gas holder was patched during use, R. H. Schaller (P.N.)Nov. 162
How to build a viable decanter for pilot plant use, Jacobs & Hildebrandt (P.N.)Mar. 126
Indicator shows level of "lift" in gas holder, Jaffe & Cirkor (P.N.)Oct. 122
Mixing liquids in shallow tanks aided by design analysis, Blasell, Everett & RushtonJan. 118
Nomograph for total volume of cylindrical tanks, C. J. Major (P.N.)Apr. 116
Wood tanks for phosphoric acid service, S. E. ChaneyJuly 230
Tantalum and acetic acid, F. L. Hunter, Nov. 264
Tantalum for phosphoric service, F. L. HunterAug. 203
Tantalum pilot plant (E.N.)July 144
Temperature—critical temperature from normal boiling point, Hooks & Kerze (P.N.)May 147
Tetraphenyl tin (A)Apr. 148
- Textile Fibers:**
British synthetic textile fiber (A)Nov. 176
Fiber from castor plant albumen (A) Feb. 278
Textile softener (A)Apr. 148
Textile Fibers see also Nylon, Rayon, Wool
Textile finish (A)May 176
Textile fungicide (A)May 170
Thermal protector (E.N.)Sept. 131
Thermocouple seal for low pressure systems, S. F. Ciriello (P.N.)Oct. 123
Thermocouple tube (E.N.)June 132
Thermometer, industrial (E.N.)June 132
Tin, tetraphenyl (A)Apr. 148
Towers—costs of chemical engineering equipment estimated, Happel, Arles & Borna (charts & tables)Oct. 99
Toxicity data files of the Chemical Warfare Service (A)Sept. 236
Trap, entrainment, L. H. Peterson (P.N.) Mar. 129
Trichloronitromethane for agricultural use (A)Aug. 128
Tricresyl phosphate (A)May 272
- Trucks:**
Air wheel truck (E.N.)May 148
Fork truck unloader (E.N.)Sept. 129

Hand truck (E.N.).....Aug. *136	High vacuum valve (E.N.).....Sept. *121	Uses and limitations of de-ionized water (A).....Aug. 250
Safety in transporting flammable chemicals. C. L. Jones.....Oct. *102	Solenoid operating valve (E.N.).....Aug. 135	Water distillation makes successful use of vapor recompression...Jan. *129
Stacker (E.N.).....Oct. *136	Three-way valve (E.N.).....June *123	Zeolite manufactured by largest softening plant (N).....Apr. 184
Truck speed chart for materials handling. J. W. Dersch (P.N.)....Aug. *128	Transfer valve (E.N.).....May *145	Waterproof fabric (A).....Apr. 148
Two-ton fork truck (E.N.).....Sept. *132	Vapor expansion tank (E.N.).....July *141	Waterproof package lines (A).....Mar. *156
Tungsten—processing plant at Las Vegas (N).....May 202	Vapor Pressures:	Waterproofing, transparent (A).....July 154
Tungsten shapes.....June *146	Chart and tables for vapor pressures of organics above 1 atm. Ernst Berl.....Oct. *122	Western chemical plants now under way.....Aug. 174
Turbines, gas:	Vapor pressure chart for organics. S. M. Wains (P.N.).....Oct. 124	Westinghouse, George, Centennial Forum (N).....June *155
Progress in development of gas turbines report.....Dec. *123	Vapor pressure of hydrocarbons. Ernst Berl (P.N.).....Feb. *166	Weed killer (A).....Jan. 159
Turpentine—supply and apparent consumption of turpentine Oct.-Dec. 1946 (table).....Mar. 288	Vapor pressures of inorganics above 1 atm. recorded by charts. Ernst Berl.....Jan. *130	Weed killer in 1946 (N).....Mar. 82
Supply and distribution of turpentine and rosin, April-June 1946-45 (table).....Sept. 278	Varnish:	Weight control report. D. M. Considine.....Apr. *125
Two-bromothophene (A).....May 172	Insulating varnish (A).....Jan. 160	Welding:
U	Modernization pays dividends in varnish industry. Vita-Var Corp. R. W. Porter.....Jan. *116	Anti-weld spatter (A).....Feb. 180
Ukraine—paper mill built.....Sept. 190	Quick drying finish (A).....Oct. 154	Pre-weld tester (E.N.).....Oct. 140
Potash deposits developed.....Mar. 196	Ventilation see Air conditioning, Dust and Fume Handling	Stainless steel fitting (E.N.).....Oct. 149
Unit operations and equipment for post-war.....Feb. *135-146	Vinyl ethynyl carbinols (A).....Mar. 270	West—new chemical industries help integrate Western economy. J. Callahan.....Oct. *114
Unit process fundamentals (A).....Sept. 244	Viscosimeter, continuous (E.N.).....June *134	Wetting agent (A).....Mar. 155; Apr. 146
United Nations Atomic Power report.....Oct. 134	Vitamin C in vegetables (A).....Aug. 266	Wheat scarcity (N).....Mar. 82
"Unolugger" for bottom-outlet reactors. L. H. Peterson (P.N.).....Feb. 164	Vitamins—colorimetric vitamin A reagent (A).....Sept. 141	Wines—wastes now yield tartrates (N).....Jan. 186
Upholstery fabric.....July 160	Vitreous silica for phosphoric acid service. W. W. Winship.....Sept. 214	Wood:
Uranium—South Africa may have radioactive ores.....Feb. 212	W	Chemicals from wood (A).....Feb. 258
Uruguay—chemical supplies improve.....Apr. 202	Wagner Act (A).....Dec. 260	Chemical utilization of wood (A).....Mar. 248
